Klaudia Kambowe Contribution Report

Student Details

- GitHub username: kambowe - Repository: KlaudiaKambowePortfolio - Live portfolio: <https://kambowe.github.io/KlaudiaKambowePortfolio/> - Project: SiteSpy

Contribution Area

My contribution focused on create, edit, and project service workflows that keep SiteSpy useful for repeated project work.

Project Context

SiteSpy is a construction support app that keeps project records, helps with wall measurements and material estimation, and prepares information for later review.

Challenge and Solution

The main challenge was presenting service workflow as a user-facing outcome. The solution was a modern SaaS-style case study.

Learning Reflection

I learned how service flow, form structure, and reliable saves support a professional mobile tool.
