

Klaudia Kambowe Presentation Report

Klaudia Kambowe Presentation Report

Portfolio Details

- GitHub username: kambowe - Repository: KlaudiaKambowePortfolio - Live portfolio: <https://kambowe.github.io/KlaudiaKambowePortfolio/> - Project: SiteSpy

Project Summary

SiteSpy is a mobile-focused project tool built with Expo React Native and Firebase. It supports construction project records, measurement review, estimate summaries, and clear project reporting.

Contribution Summary

My contribution focused on create, edit, and project service workflows that keep SiteSpy useful for repeated project work.

Challenge and Solution

The main challenge was presenting service workflow as a user-facing outcome. The solution was a modern SaaS-style case study.

Learning Reflection

I learned how service flow, form structure, and reliable saves support a professional mobile tool.

Presentation Notes

- Explain what SiteSpy does for a user. - Describe the assigned project area. - Connect the public portfolio to the GitHub repository. - Discuss GitHub Pages deployment and team collaboration. - Refer to real screenshots only after they have been captured from the student's own repository or project work.
