Student Details

- GitHub username: kandjekejohannes54 - Repository: JohannesMKandjekePortfolio - Live portfolio: <https://kandjekejohannes54.github.io/JohannesMKandjekePortfolio/> - Project: SiteSpy

Contribution Area

My contribution focused on responsive layout review, spacing, typography, and documentation that supports final presentation.

Project Context

SiteSpy is a construction support app that keeps project records, helps with wall measurements and material estimation, and prepares information for later review.

Challenge and Solution

The main challenge was making review work easy to assess. The solution was an academic report format with clear sections.

Learning Reflection

I learned how responsive design and written explanation work together in a technical portfolio.
