

Amalia Mangundu Contribution Report

Amalia Mangundu Contribution Report

Student Details

- GitHub username: amaliamangundu-tech - Repository: AmaliaMangunduPortfolio - Live portfolio: <https://amaliamangundu-tech.github.io/AmaliaMangunduPortfolio/> - Project: SiteSpy

Contribution Area

My contribution focused on profile, settings, and reusable controls that help the app feel consistent across screens.

Project Context

SiteSpy is a construction support app that keeps project records, helps with wall measurements and material estimation, and prepares information for later review.

Challenge and Solution

The main challenge was connecting reusable UI work to visible project value. The solution was a product-focused showcase.

Learning Reflection

I learned how consistency, settings, and reusable elements improve a user's confidence in an app.
